# ABOUT US

We launched in 2019 with a goal to connect people with local communities. We have since successfully provided e-bike tours to a wide range of customers from individuals to international businesses. Our carefully curated packages are designed around our clients needs to effortlessly traverse informative countryside routes, interact in suitable activities and bathe in the beautiful scenery on our easy-to-ride electric bikes. Let us plan your self-guided or guided adventure today for an unforgettable team experience.

# VISION

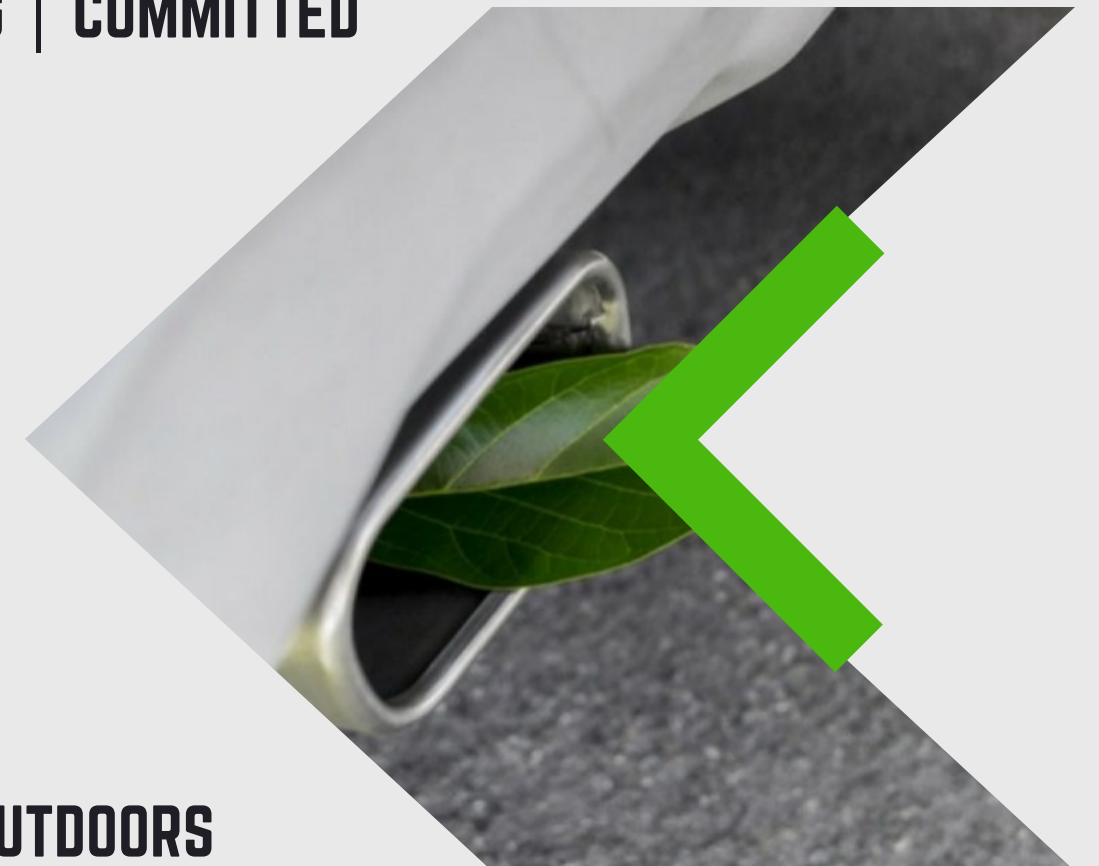

Country Hire and Go are passionate about the Countryside and preservation. As we evolve, we are focusing on climate goals to significantly reduce greenhouse gas emissions by transitioning to electric vehicles by 2025 and achieving sustainability goals for recycling and reducing our plastic waste by 75%. We intend to be completely climate neutral by 2040. Our colleagues are consciously working to build activity days that connect business to business with a focus on sustainability..

 Team Retreats

## TRANSPORTATION

We deliver and collect our electric bikes to enable riders' full enjoyment of their countryside Tour. You can integrate our premium travel services for a car free day with us. We will provide and organise all transport for your team to and from the Tour location in our Licensed vehicles.

# THE HISTORY

## 2019

Country Hire and Go Hire was launched. We began with one vehicle and 2 Synch electric bikes and became the first recognised distributor in the South East for Synch E-bikes who were the only UK based Fat Tyre manufacturer at that time.

## 2020

We continued to provide essential services during Government lockdowns but with reduced demands we diversified to delivering supermarket shopping. Our electric bike hires were proving popular.

## 2021

We employed our second family member and secured a bid to provide a 6 week e-bike hire to ITV productions in Maidstone for 35 e-bikes. We upscaled our fleet of e-bikes from 2 to 6 and developed our partnership working with other e-bike companies.

## 2022

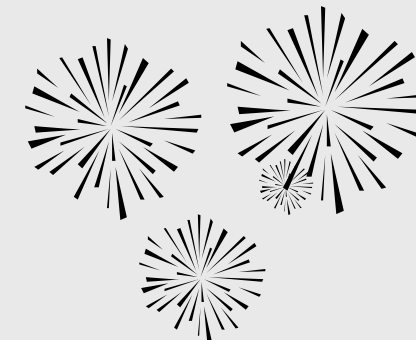

Our part time driver became full time to meet the growing demands of our Taxi services. We purchased a trailer and increased our vehicle and ebike fleet, becoming also a recognised distributor for the sale of UK based Oxygen and Batribike.

## 2023

Our business grows with 2 new part time roles for family members. We developed e-bike tour packages, increasing our private and business group bookings.

## 2024

We officially launch Corporate Ebike Tours.

# TEAM PROFILE

## DENISE MASON

### FOUNDER

I Founded Country Hire and Go Ltd in the summer of 2019 as a local business based in rural West Kent on the borders of Surrey and Sussex. Valuing highly, the enormous benefits our rural communities can offer, as a lover of the countryside and village life, it was clear to me that for many people rural destinations are inaccessible. With a keen interest in reducing emissions to protect our environment,

We want to play a part in enabling and encouraging access to our countryside. I thrive on collaborations and networking to be able to support local businesses to develop and continue delivering amazing services and trade for the enjoyment of all and to ultimately protect our communities.

# COLLABORATION

# SYNCH

All Synch electric bikes are hand built with love in Dorset, never mass produced. So we're all about custom paint, accessories and personal touches to make your bike unique. Plus, as a UK company, with a wide network of retailers and workshops, we've got your back with top-notch support. So, ride on with confidence and peace of mind.

# OXYGEN

South Yorkshire, UK based company with expertise in eBikes for over 10 years, Oxygen ebikes strive to meet all expectations of the products they create. Their handmade magnesium alloy frames are of the highest quality and all the bikes feature the latest eBike technology & components, all built to the highest standard in Europe.

# BATRIBIKE

For over 10 years Batribike have been making quality electric bikes for cyclists across the UK. Batribike celebrates fifteen years in electric bikes and ten years of folding bike bags hand-made for us in Devon.

# CUSTOMER TESTIMONIAL

**PAUL THOMAS**

**BIKE HIRE**

*Denise was amazing! Dropped the bikes off at our BnB and even made an amazing tailored route for us to enjoy. Not only this but she provides taxi services too, and was able to drop us back at the station afterwards. Thanks for a great time! Would definitely recommend! 👍*
